

Farm Visit

Name of farm visited: _____

Visitor: _____

Dated the visit was completed: _____

Please cover the following topics:

1. What herbicides, insecticides, fungicides and fertilizers are used on crops, fields and livestock.

2. How is soil fertility managed – cover crops, compost, crop rotation, crop diversity, pastures, buffer strips and water.

3. What is the source of seed and starts/transplants– organic, local/regional and untreated.

4. Livestock - access to pasture, no hormones, no antibiotic feeds, no GMO's, humane treatment.

5. Post-harvest practices – transport, storage, potable wash water.

6. Biodiversity enhancement and land stewardship/conservation.

7. Where are crops sold; how do you enhance the larger food community.

8. What are your worker practices and compensation.

Comments/Concerns:

Please complete and send in or bring to the March meeting.

Send to Homegrown Secretary:
